

CERTIFICATE OF INTERNSHIP COMPLETION

This is to certify that

Ali Mohammad

has successfully completed the research internship at **School of Chemical and Materials Engineering**

from **04-07-2025** to **19-08-2025**.

During his internship, Ali actively participated in research activities under the supervision of Dr. Humayun Nadeem and made meaningful contributions to ongoing projects. He gained valuable experience in sustainability assessment through conducting life cycle assessments of materials such as MXenes and biocement, as well as in material synthesis by developing expertise in producing biobased films as sustainable alternatives to conventional packaging materials.

The internship provided hands-on training in research methodologies, data analysis, and project execution, and I found Ali to be dedicated, disciplined, and eager to learn throughout the placement.

I sincerely appreciate his efforts and professionalism, and I wish continued success in all his future endeavors.

Supervisor Signature

Dr. Humayun Nadeem
Assistant Professor
Dept. of Chemical Engineering
